International delegates visit Land Victoria

International interest in electronic conveyancing in Victoria is growing with recent visits by government delegations from Singapore (below), Malaysia and China. The delegations were briefed on several aspects of EC including system operation, financial settlement and digital certification and signing. Feedback from the visits was very positive.

December system release

We are excited by the new single signing functionality that will be provided in our next system release on 13 December. We receive regular feedback from subscribers on single signing and are pleased that the benefits and convenience of being able to sign all the documents in your lodgement file at the same time will now become a reality. A demonstration of this functionality will be available for viewing on our website at www.landexchange.vic.gov.au/ec in the week leading up to the system release.

Subscriber security reminder

Subscribers are reminded that each EC system user should have their own account with a secure user name and password. An EC subscriber administrator has the ability to add and maintain users. To do this, refer to the training handbook 'Overview Screen Navigation Administration'.

It is a breach of the EC system contract for users to share passwords or pass-phrases with anyone and/or to permit any other person to use their passwords or pass-phrases and/or to permit any other person to see the entry of their passwords and pass-phrases into any computer. See section 4.5 Compliance and schedule 5 of the Registrar's Requirements for details on the EC system users security policy at www.landexchange.vic.gov.au/ec/r_regdocs.html

For further information or to request a copy of the training handbook, please email ec@landexchange.vic.gov.au
